

Suggested Uses

Diaper Odors

New parents will change 3,360 diapers during the first year! And no matter how much you love your newborn, that's a lot of stinky poo-poo. Diaper and diaper pail odors can leave a lasting impression that spreads across the entire house. One whiff may leave your visitors asking, "Did you just have a new baby?"

X-O Odor Neutralizer to the rescue! X-O Odor Neutralizer was made to be green long before green was cool. Created and made in Dallas Texas since 1985, **X-O Odor Neutralizer has been the go to odor eliminator for hospitals, nurseries, day care and parents for over 30 decades!** And it's no wonder why.

X-O Odor Neutralizer eliminates odors safely and effectively. It's plant-based formula in de-ionized water is safe to use directly on people and pets, and will make any baby's nursery fresh - not with fragrance odors or perfumes, but by naturally eliminating odors until nothing is left behind but fresh, clean air.

Try X-O Odor Neutralizer against your harshest baby and infant odors today. You'll be glad you did.

X-O Odor Neutralizer (XOXR) – Air Freshener

Concentrated X-O Odor Neutralizer (XOXC) – Odor Eliminator

X-O PLUS Cleaner (XOPR) – ready to use all purpose cleaner and air freshener – neutralize odors as you clean.

Concentrated X-O PLUS Cleaner (XOPC) – water soluble all purpose cleaner and odor neutralizer. Will buff to a shine.

Dilution Rates: XR is ready to use. XC dilutes 1:3 parts water for spray applications: ½ oz. per gal. of water for wet mop/wipe down applications. PC dilutes 1 oz. per gal. of water for general cleaning and at the same dilution as the shampoo in carpet extraction equipment.

General Cleaning: Use PC sprayer for detailing interior surfaces (Paint work, Fiber-glass finishes, Plexi-glass windows, chrome, upholstery, carpets and interior trim). Spray and wipe streak free.

Applications: Use PR and PC to clean hard and soft surfaces including metal, Formica, glass, vinyl, ceramic, terrazzo, quarry tile, wood, carpets, fabrics and upholstery; any surface that water will not damage. Use XR and XC as an air freshener as needed.

Directions

Air Freshener: Spray PR into the air as needed or spray into air return vent to neutralize odors throughout the air system zone.

Carpets: Before vacuuming or spin-bonnet buffing, spray PR to carpet. Use 1 oz. of PC per gallon of water in carpet extraction cleaner system. No need to add other cleaning chemicals.

Hard Floors: Use 1 oz. PC per gallon of water for wet mopping.

Dumpsters: Spray PR into the dumpster each time the trash is taken out. Use 1 part PC per 50 parts water in dumpster spray systems.

Cafeteria: Mop hard floors with 1 oz. PC per gallon of water. Spray PR on table and counter tops, hand wipe with a clean cloth.

Kitchen: Spray waste food receptacles with PR. Use PR to clean refrigeration units and counter tops. Use 4 oz. of PC per gallon of water to mop floors.

Rest Rooms: Spray PR to all surfaces and wipe with a clean cloth. Use 1 oz. of PC per gallon of water to wash floors and walls.

Locker rooms: Spray PR into foot locker vents.

Laundry: Spray clothes baskets with PR. Add 4 oz. PC to wash cycle when dealing with sports attire. Spray PR into the dryer if any odor remains after washing.

Diaper Change Stations: Spray diaper pail with PR. Spray counter top with PR and wipe with a clean cloth after each child change. Safe to spray PR directly to clothing to remove soiling and odor. Lift stains with a clean cloth after PR application.
