

Suggested Uses

Restaurants

The last thing you want in your restaurant is harsh chemical air fresheners overriding comforting food smells with heavy perfumes and man-made chemicals. X-O Odor Neutralizer eliminates grease, restroom and waste smells naturally and safely, leaving your restaurant smelling fresh and clean and giving your customers a safe environment.

And if you find yourself confronted by an unpleasant odor in a food court or cafeteria you can use our portable 4 ounce pump spray to remove odors in your personal space safely and discreetly. Use X-O on the Go!

X-O products can simplify environmental maintenance operations and at the same time assist the best cleaning standards with absolute safety for people and the environment. X-O products save time and money because they work well and are convenient and easy to use.

X-O Odor Neutralizer (XR) – air freshener

Concentrated X-O Odor Neutralizer (XC) – odor eliminator

X-O Plus Cleaner (PR) – ready to use all purpose cleaner and air freshener – neutralize odors as you clean.

Concentrated X-O Plus Cleaner (PC) – water soluble all purpose cleaner and odor neutralizer. Will buff to a shine.

Dilution Rates: XR is ready to use. XC dilutes 1:3 parts water for spray applications; ½ oz. per gallon of water for wet mope/wipe down applications. PC dilutes 1 oz. per gallon of water for general cleaning and at the same dilution to be used as the shampoo in carpet extraction equipment.

General cleaning: Use PR sprayer for detailing interior surfaces (paint work, fiberglass finishes, Plexiglass windows, chrome, upholstery, carpets and interior trim). Spray and wipe streak free.

Applications: Use PR and PC to clean hard and soft surfaces including metal, Formica, glass, vinyl, ceramic, terrazzo, quarry tile, wood, carpets, fabrics and upholstery; any surface that water will not damage. Use XR and XC as an air freshener as needed.

Directions

Air Freshener: Spray PR into the air as needed or spray into air return vent to neutralize odors throughout the air system zone.

Carpets: Before vacuuming or spin-bonnet buffing, spray PR to carpet. Use 1 oz. PC per gallon of water in carpet extraction cleaner system. No need to add other cleaning chemicals.

Hard floors: Use 1 oz. PC per gallon of water for wet mopping.

Dumpsters: Spray PR into the dumpster each time the trash is taken out. Use 1 part PC per 50 parts water in dumpster spray systems.

Cafeteria, Restaurant & Bar: Mop hard floors with 1 oz. PC per gallon of water. Spray PC to table and counter tops, wand wipe with a clean cloth.

Cigarette Smoke: Spray ash tray with PR. In game rooms or where ever smoking is permitted, make a wick with paper towel in a container. Soak the paper towel roll with PR and place behind an air vent or screen.

Furnishings: Freshen up and spot clean as necessary with PR spray.

Kitchen: Spray waste food receptacles with PR. Use PR to clean refrigeration units and counter tops. Use 4 oz. PC per gallon of water to mop floors.

Grease trap & hopper: Spray PR to outside and inside surfaces. Consider using a pressure sprayer of 1 oz. PC to 1 gallon of water.

Rest rooms: Spray PR to all surfaces and wipe with a clean cloth. Use 1 oz. PC per gallon of water to wash floors and walls.

Dining Area: Mop hard floors with 1 oz. PC per gallon of water. Spray PR to table tops and wipe with a clean cloth.

Laundry: Spray clothes baskets with PR. Add 4 oz. PC to wash cycle when dealing with sports attire. Spray PR into the dryer if any odor remains after washing.
