Smoking Odors

Even the harshest Smoking Odors like Cigar, Pipe, Hookah and Cigarette can be eliminated naturally by X-O Odor Neutralizer.

Even while the use of tobacco in America statistically decreases, the luxury uses of smokable products including vaporizers, hookah bars, cigar lounges and increased states rights continues to rise. And while aficionados and vaporizers continue to find alternative ways to enjoy smoking pleasures, resulting odors can be very strong and off-putting for non-smoking family members and employers.

Enter X-O Odor Neutralizer to save the day. X-O Odor Neutralizer removes the strongest smoking odors instantly and effectively. Don't disrupt employees, employers or your hectic work schedule. X-O Odor Neutralizer will remove smoking odors from your presence safely. No concerns about smelling smokey, simply spritz yourself with X-O Odor Neutralizer, make sure a steady breeze engulfs you from either a brisk walk or automobile A.C. turned on full blast, and smell the odors strip away. No more heavy smoking smells.

X-O Odor Neutralizer (XR) – air freshener

Concentrated X-O Odor Neutralizer (XC) – odor eliminator

X-O PLUS Cleaner (PR) – ready to use all purpose cleaner and air freshener – neutralize odors as you clean.

Concentrated X-O PLUS Cleaner (PC) – water soluble all purpose cleaner and odor neutralizer. Will buff to a shine.

Dilution Rates: XR is ready to use. XC dilutes 1:3 parts water for spray applications; ½ oz per gallon of water for wet mop/wipe down applications. PC dilutes 1 oz. per gallon of water for general cleaning and at the same dilution to be used as the shampoo in carpet extraction equipment.

General cleaning: Use PR sprayer for detailing interior surfaces (paint work, fiberglass finishes, plexiglass windows, chrome, upholstery, carpets and interior trim). Spray and wipe streak free.

Smoking Odors Spray X-O Odor Neutralizer vigorously high into the air with good circulation. Treat area two to three times, allowing five to ten minutes between treatment.

Spray ash trays with PR. In game rooms or where ever smoking is permitted, make a wick with paper towel in a container. Soak the paper towel roll with PR and place behind an air vent or screen.
